

The CARES Act appropriated \$100 billion to establish a Provider Relief Fund. This Fund, administered by the Secretary of Health and Human Services (HHS), is being used to distribute payments to health care entities across the country that have been affected by the coronavirus.

To date, \$30 billion has been distributed generally to health care entities across the country.

HHS will soon make targeted distributions to hospitals and other facilities that have been particularly affected by the increased burden of caring for those with the coronavirus. To inform how these funds are distributed, HHS is asking all hospitals to provide the following information:

For each facility with a Medicare Tax Identification Number (TIN):

- Total number of Intensive Care Unit beds as of April 10, 2020
- Total number of admissions with a positive diagnosis for COVID-19 from January 1, 2020 to April 10, 2020
- National Provider Identifier
